

## **Quality Policy Statement.**

It is the policy of Total Aviation Ltd A/S to provide products and services that fully and consistently meet the expectations and needs of its customers, stakeholders, regulatory and statutory requirements to ensure that products are supplied to defined standards of content and fitness for purpose.

To demonstrate to all our interested parties the company's commitment to quality, it is our goal to maintain certification with an independent certification body as a company assessed with quality capabilities under the requirements of AS9120B and FAA AC00-56B Quality Management Systems approvals for Aircraft Part Suppliers and National and International Airworthiness regulations.

To ensure the QMS supports the strategy of the business we will commit to the continual improvement of the quality management system, develop objectives and conduct activities which will both monitor and measure our performance and effectiveness plus also drive the business forward to exceed all our stakeholder expectations.

The Quality Policy of the company is implemented through the quality management system. The requirements of this system are mandatory for all company personnel and no unauthorized alterations or deviations are permitted. This policy is maintained by each employee, in whatever capacity, by performing his or her work to the highest standards at all times.

NOTE: The Top Management of Total Aviation Ltd A/S will ensure that the Quality Policy is clearly understood, implemented, maintained, and communicated at all levels within the organisation. All Managers shall take the Quality Policy into consideration in the development of objectives and targets. This Quality Policy is available to all our interested parties via: www.totalaviation.com/Quality

**Per Loeye.** Managing Director.
